DISCUSSION: The Technical Assistance Team (TAT) contractor was tasked to conduct an Expanded Site Inspection at this site. During the on-site reconnaissance, the EPA Site Assessment Manager (SAM) and TAT met with representatives from Olin Corporation. The facility representatives indicated that they wished to be proactive and work with the State Agency to complete the on-site and off-site investigation of the site. Following this meeting the EPA SAM met with the Arkansas Department of Pollution Control and Ecology (ADPC&E). ADPC&E and EPA have agreed that ADPC&E will have the lead in working with the facility to complete the investigation at this site.
